Skills

- **Languages:** Python, Java, JavaScript
- **Machine Learning:** NumPy, Pandas, Scikit-Learn, TensorFlow, Keras
- **Data & Visualization:** Matplotlib, Tableau, Data Cleaning
- **Web & Tools:** HTML, CSS, Streamlit, Git
- **Problem Solving:** DSA, LeetCode

Achievements

- Winner — College Hackathon 2024 (AI-based problem-solving solution)
- Solved 200+ DSA problems across LeetCode and other platforms
- Black Belt in Taekwondo — demonstrates discipline, consistency, and leadership

Education

B.Tech in Computer Science, CVR College of Engineering
CGPA: 8.02 / 10

2022 – 2026

Experience

AI and Data Intern — Fortune Minds INC

Jan 2026 – Present

- Worked on end-to-end ML pipelines including data preprocessing, feature engineering, and model evaluation.
- Gained hands-on experience with supervised learning algorithms using real-world datasets.

Certificates

Machine Learning — Stanford University (Andrew Ng)

Projects

LLM Book Recommender — LangChain, HuggingFace, Streamlit

GitHub: github.com/kaja-abhijeet/book-recommender-llm

Live Demo: bookrecommenderllm.streamlit.app

- Built an LLM-powered recommendation system using LangChain and HuggingFace embeddings for semantic similarity search.
- Designed an interactive Streamlit interface with metadata-based filtering and ranked recommendations.

AI Stock Trader — Reinforcement Learning (Q-Learning)

GitHub: github.com/kaja-abhijeet/AI-Stock-Trader

Live Demo: ai-stock-trader.streamlit.app

- Developed an AI-based trading agent using Q-Learning trained on historical market data.
- Implemented a complete ML workflow including environment design, training, evaluation, and back-testing.
